CLARION
EVENTS

ABU DHABI, UAE 31 JANUARY – 3 FEBRUARY 2010

GAS ARABIA SUMMIT 5TH ANNUAL MEETING

Key panel members

Ismail Al Ramahi, Manager, Gas Processing Division, Exploration and Production Directorate, **ABU DHABI NATIONAL OIL COMPANY (ADNOC)**

Saif Al Ghafli, Chief Executive Officer, **ADNOC CONOCOPHILLIPS JOINT VENTURE**

Badr Jafar, Chairman of the Board, **PEARL PETROLEUM COMPANY LIMITED**

Yousuf Al Ojaili, Chief Executive Officer, **OMAN GAS COMPANY**

Ruurd Abma, Chief Operating Officer, **RAKGAS**

Hasan Al Marzooqi, Deputy General Manager, **ABU DHABI GAS LIQUEFACTION COMPANY LIMITED (ADGAS)**

Mohammed Ahmad Husain, Deputy Managing Director, Planning and Gas, **KUWAIT OIL COMPANY (KOC)**

Hany El Sharkawi, President, **DANAGAS EGYPT**

Brian Buckley, General Manager and Chief Executive Officer, **OMAN LNG LLC**

Benefits of attending

- Hear the latest forecasts and analyses on the global gas supply, demand and pricing situation to enable you to refine your strategy moving forward.
- Meet with powerful international leaders active in or looking to do business in the Middle East, enabling you to select the best partners to achieve your growth objectives.
- Gain insight into the latest LNG and downstream market developments and opportunities so that you can optimise your diversification strategy.
- Assess the most innovative technologies and solutions to enable you to reduce flaring, improve your gas processing facilities, and optimise your supply, transportation and distribution channels.

Pre Conference: Sour Gas Meeting + LNG Contract Negotiation and Value Chain Optimisation Masterclasses

Post Conference: Energy Management: Flare Reduction and Gas Recovery Workshop

GAS ARABIA SUMMIT

WELCOME

Dear Colleague,

On behalf of The Energy Exchange, I am delighted to welcome you to our 5th Annual Gas Arabia Summit, *the* meeting place for all companies looking to meet new partners, capitalise on growth opportunities and diversify their resources and investment portfolio.

2009 has illustrated how the economics of gas production in the Middle East region remain of principal concern. Supply, demand and pricing issues are crucial to the region being able to satisfy its own growing energy demands while also capitalising on burgeoning global demand.

We have recently witnessed several key developments in terms of major partnerships being formed and new discoveries being made both in and around the Middle East region, which present both exciting opportunities and difficult challenges for the region's producers.

By bringing together the leading minds in the sector, Gas Arabia will address the political and economic issues affecting the region. In addition, we will highlight the strategic partnerships and projects contributing to the development of the sector. Finally, we will assess new LNG opportunities and transportation and distribution challenges, enabling you to optimise your existing assets and operations.

New for 2010, we are delighted to bring to you our LNG Masterclasses and Energy Management Workshop, led by thought leading experts to enable you to refine your existing strategies.

In addition, our 3rd Sour Gas Meeting will uncover the latest technologies, processes and best practices to enable you to improve the safety and efficiency of your sour gas processing operations.

We look forward to welcoming you to what promises to be the most exciting gas event in 2010!

Dominica Andrews
Conference Manager, Middle East Operations
The Energy Exchange

ABOUT THE ENERGY EXCHANGE

Since 1997, The Energy Exchange has achieved worldwide recognition for the organisation of high level, strategic and technical conferences within the upstream oil and gas and alternative energy sectors. Our industry events are renowned as market leaders in their fields.

Due to our strong and long standing relationships with governments and all of the major oil and gas producers worldwide, we ensure our events consistently tap into the key issues affecting the industry and we bring together the principle influencers to share their thoughts, ideas and vision with you, our audience.

Our annual events take place around the world in the Middle East, Latin America, Europe, North Africa, CIS, Russia, and Asia. They take centre stage in the oil and gas calendar together with our awards which are increasingly becoming a sought after commodity to highlight best practice and excellence within the industry.

INAUGURAL ADVISORY BOARD MEMBERS

Badr Jafar
Chairman of the Board
**PEARL PETROLEUM

COMPANY (KOC)**

2009 SUMMIT TESTIMONIALS

“ The Gas Arabia Conference gave me an opportunity to learn more about the issues, challenges, opportunities and future plans of gas industry players in the region. The conference provided an international perspective. Congratulations! ”

Ashok Kumar Vellimana, Head of Technical Planning Development,
RASGAS

“ With too many conferences in this area, Gas Arabia delivered the most interactive, exciting and informative meeting. I had a great time and it was time well spent. I was really pleased with the arrangement and handling of the conference. ”

Mohammed Ahmad Husain, Deputy Managing Director, Planning and
Gas, **KUWAIT OIL COMPANY (KOC)**

WHO SHOULD ATTEND

Sour Gas Meeting: 31 January 2010

- Executives from NOCs, IOCs and Private Sector Gas Companies
- Gas Processing Managers from NOCs, IOCs, Private Sector and Exploration and Production Companies
- Gas Field Project Developers and Solution Providers
- Reservoir and Gas Plant Managers
- Sour Gas Team Leaders
- Experts from Technology and Solution Providers

LNG Masterclasses: 31 January 2010

- Executives from NOCs and Private Sector Gas Companies
- Lead Counsel from NOCs and Private Sector Gas Companies
- Financial Executives from NOCs and Private Sector Gas Companies
- Investors and Financiers from International Institutions

Gas Arabia Summit: 1-2 February 2010

- Executives from NOCs and IOCs
- Executives from Private Sector Oil and Gas Companies
- Exploration and Production Executives of Regional and International Companies
- Gas Field Project Developers and Solution Providers
- Process and Technology Support Advisors, Licensors and Engineers
- Major Engineering and Technology Providers
- Financiers, Consultants and Lawyers
- Gas Supply and Operations Executives

Energy Management: Flare Reduction and Gas Recovery Workshop: 3 February 2010

- Executives from NOCs and IOCs
- Executives from Private Sector Oil and Gas Companies
- Experts from Technology and Solution Providers
- Asset Managers
- Technical Directors

SOUR GAS MEETING
SUNDAY 31 JANUARY 2010

This meeting will provide a platform to share best practices, technologies and approaches for the safe handling, treatment, storage and disposal of sour gas and its contaminants.

08:00 Registration and coffee

09:00 Opening welcome and keynote address

Saif Al Ghafli, Chief Executive Officer, **ADNOC CONOCOPHILLIPS JOINT VENTURE**

09:15 Business card exchange

09:30 **Session One: Major sour gas projects in the region**

- Special focus: Shah Gas Development Project – A new frontier in sour gas processing

The Shah Gas Development (SGD) Project is the first development of a very sour gas field in Abu Dhabi. The well fluid contains approximately 10 mole % CO₂ and 23 mole % H₂S. The SGD Project is designed to treat and process about 1,000 MMscfd of this feed stream. This presentation will address how the sour nature of the produced gas, the large volumes of processed gas and produced sulphur will set a new benchmark for the gas processing and sulphur recovery industry.

- Case study: Exploring the capabilities of the Rakgas processing plant and best practices for efficient project management – technical and logistical issues of sulphur recovery

Abdalla Al Muhairi, Deputy Senior Vice President, **COMPANY, ABU DHABI GAS DEVELOPMENT COMPANY LIMITED (GASCO)**

Naushad Kassamali, Technical Manager, **ABU DHABI GAS DEVELOPMENT COMPANY LIMITED (GASCO)**

Ruurd Abma, Chief Operating Officer, **RAKGAS**

10:30 Coffee break

11:00 **Session two: Technologies, materials and processes for safe and efficient sulphur removal and acid gas injection**

- The challenge of deep COS removal: which options do we have? Assessing the different

options of removing COS from gas streams with a focus on the removal in the acid gas removal unit

- Native elemental sulphur in sour gas: characterisation and phase behaviour
- Safety considerations for acid gas injection and transport

Nawid Kashani, Senior Process Manager, Gas Treatment Process Technology, **BASF**

Dr. Rob Marriott, Research Scientist and Project Manager, **ALBERTA SULPHUR RESEARCH LTD.**

12:15 Lunch

13:30 **Session three: Sulphur handling, management and transport strategies**

- Technical and commercial considerations for sulphur management
- Improving liquid sulphur handling facilities and long distance pipelines – highlighting the special demands on redundancy, insulation and heating of all involved facilities like storage tanks, pumps, loading/unloading stations, pipes and pipelines resulting from the narrow temperature range when sulphur is fluid

Paul Davis, General Manager, **ALBERTA SULPHUR RESEARCH LTD.**

Rolf Szczepanek, Director, Process Engineering, **ILF CONSULTING ENGINEERS**

14:45 Coffee break

15:15 **Session four: Roundtable discussions**

This session will be devoted to interactive open discussions providing the opportunity for informal information exchange and relationship building.

TABLE ONE

Sulphur recovery versus re-injection

TABLE TWO

Hydrocarbon rich gas versus hydrocarbon lean gas and its impact on acid gas removal technology selection

Roundtable leader: Nawid Kashani, Senior Process Manager, Gas Treatment Process Technology, **BASF**

16:45 Close of meeting

19:00 Pre-Summit registration and welcome reception

LNG MASTERCLASSES SUNDAY 31 JANUARY 2010

The LNG market poses significant opportunities and challenges. As new players continue to enter the market, the complexity of the landscape increases, making it more difficult for companies to negotiate contracts and optimise their portfolios. These masterclasses are designed to address the complexities and offer attendees practical solutions for dealing with them.

08:00 Registration and coffee

09:00 Opening welcome address
and business card exchange

09:15 Successful LNG contract negotiation

Sponsored and hosted by:

KING & SPALDING

Benefits to attendees:

- Learn how to successfully draft and negotiate LNG sale and purchase contracts
- Gain insights into key LNG contracts issues today
- Develop a better understanding across the chain of LNG contracts

Masterclass Hosts:

Philip Weems, Managing Partner, **KING & SPALDING**

Amelia Jalleh, Counsel, **KING & SPALDING**

12:30 Lunch

14:00 LNG value chain optimisation

Benefits to attendees:

- Assess the key issues affecting the entire LNG value chain
- Minimise investment risk and project pitfalls
- Structure your strategy in a way that optimises your portfolio
- Learn how evolving models will impact your business

Masterclass Host:

Rudolf Huber, Head of Business Development, **ECONGAS**

17:30 Close of Masterclasses

19:00 Pre-Summit registration
and welcome reception

DAY ONE: GAS ARABIA SUMMIT MONDAY 1 FEBRUARY 2010

08:00 Registration and coffee

09:00 Opening welcome and keynote address

Ismail Al Ramahi, Manager, Gas Processing Division, Exploration and Production Directorate, **ABU DHABI NATIONAL OIL COMPANY (ADNOC)**

09:15 Business card exchange

09:30 Session one: Balancing domestic needs with opportunities for export

Chairman: **Hasan Al Marzooqi**, Deputy General Manager, **ABU DHABI GAS LIQUEFACTION COMPANY LIMITED (ADGAS)**

- Economics of global gas production: Analysis of the major supply, demand and pricing issues in the global natural gas market
- The future of gas, LNG and energy consumption: Assessing the relationship between oil and gas pricing, sustainability for investment, geopolitical issues, and drivers for each country in the region

Johannes Benigni, Managing Director, **JBC ENERGY**

Mohammed Ahmad Husain, Deputy Managing Director, Planning and Gas, **KUWAIT OIL COMPANY (KOC)**

10:30 Coffee break

11:00 Session two: Optimising the role of strategic partnerships and the private sector in major Middle East developments

Chairman: **Hany El Sharkawi**, President, **DANAGAS EGYPT**

- Importance of the private sector to integrate and enable gas projects to happen
- Overcoming project finance challenges
- Developments of the Crescent/DanaGas/MOL/OMV partnership
- Regional and global opportunities for sustainable growth in the region

Badr Jafar, Chairman of the Board, **PEARL PETROLEUM COMPANY LIMITED**

12:15 Lunch

13:30 Session three: Capitalising on LNG opportunities in the region

Chairman: **Philip Weems**, Managing Partner, **KING & SPALDING**

- The evolving role of Middle East LNG production in the global gas market
- Floating gas import terminals: Evaluating the feasibility and benefits of floating liquefaction facilities

Hiroshi Hashimoto, Natural Gas Analyst, **INTERNATIONAL ENERGY AGENCY (IEA)**

Dr. Raed Kombargi, Vice President, **BOOZ & COMPANY**

Brian Buckley, General Manager and Chief Executive Officer, **OMAN LNG LLC**

Rudolf Huber, Head of Business Development, **ECONGAS**

14:45 Coffee break

15:15 Session four: Improving exploration and production activities in the region

- Successful exploration in the Nile Delta - the key drivers
- Framework to spur gas developments in the Southern Gulf

Leonardo Salvadori, Exploration Manager, **DANAGAS EGYPT**

Klaus Angerer, General Manager, **OMV ABU DHABI**

16:45 Close of day one followed by social networking reception

**DAY TWO: GAS ARABIA SUMMIT
TUESDAY 2 FEBRUARY 2010**

08:00 Registration and coffee
09:00 Opening welcome address
and business card exchange

09:15 Session five: Infrastructure and supply chain optimisation – potential technology applications

- Wintershall expertise in planning, developing and operating gas storages
- Enabling technologies for onshore and offshore production
- Delivering process and operational efficiency

Wolfgang Herget, Senior Advisor, **WINTERSHALL**
Gerhard Haase, Representative, **WINTERSHALL ABU DHABI**

10:30 Coffee break

11:00 Session six: Strategies for gas transportation and distribution throughout the region and to international markets

- Development of the Taweelah-Fujairah pipeline project and key challenges faced
- Case study: Exploring the key challenges of developing the first link of a GCC gas network executed by Oman Gas for export to UAE's Dolphin
- Case study: Successful implementation of a GIS based pipeline information system

Senior Representative, **DOLPHIN ENERGY**
Yousuf Al Ojaili, Chief Executive Officer, **OMAN GAS COMPANY**
Karim Elhanafi, Head of Pipeline Projects, **MS.GIS**

12:15 Lunch

13:30 Session seven: Opportunities for the diversification of gas resources in the Middle East

- Balancing growing domestic gas demand against the need for resource diversification
- Development of South Pars and its impact on downstream opportunities for Iran

- Impact of flared gas capture on petrochemical projects in Iraq

Michael Corke, Senior Vice President, **PURVIN AND GERTZ**

Seyed Mehdi Hosseini, Former Deputy Oil Minister of Iran and Advisor to Managing Director, **IRANIAN OFFSHORE ENGINEERING AND CONSTRUCTION COMPANY (IOEC)**

Mustafa Al Jarrah, International Petrochemical Consultant and Former Director General of Petrochemicals, **MINISTRY OF INDUSTRY AND MINERALS, IRAQ**

14:45 Coffee break

15:15 Session eight: Roundtable discussions

This session will be devoted to interactive open discussions providing the opportunity for informal information exchange and relationship building.

Each Roundtable Chairman will make a formal presentation to attendees, outlining the key themes and issues to be discussed at their table. Following the introductions, attendees will be invited to select a table of their choice.

Once the interactive discussions are complete, each Roundtable Chairman will provide a summary to all attendees highlighting the key points that came from the discussions.

TABLE ONE

Gas pricing and cost issues

Roundtable leader: Johannes Benigni, Managing Director, **JBC ENERGY**

TABLE TWO

LNG opportunities and challenges facing the region

Roundtable leader: Rudolf Huber, Head of Business Development, **ECONGAS**

TABLE THREE

Transportation and distribution challenges and innovative technical solutions

Roundtable leader: Yousuf Al Ojaili, Chief Executive Officer, **OMAN GAS COMPANY**

16:45 Close of Summit

LINKEDIN NETWORK

As networking is a key component of Gas Arabia, we have created a new interactive community for those working in or looking to do business in the Middle East gas sector. Our Middle East Gas Network (MEGNET) Group can be found on LinkedIn. For more information, email: d.andrews@theenergyexchange.co.uk or visit www.linkedin.com.

**ENERGY MANAGEMENT WORKSHOP
WEDNESDAY 3 FEBRUARY 2010**

This workshop will explore the technical challenges and financial implications of achieving zero flaring, assessing gas recovery as well as environmental considerations, providing attendees with a comprehensive overview and practical strategies to move forward.

08:00 Registration and coffee

09:00 Opening welcome address
and business card exchange

09:15 Session one: Energy conservation and efficiency improvement

- Opportunities for gas flare reduction carbon projects in the oil and gas industry
- Economics of gas flaring and the major barriers to reduction initiatives
- Assessing potential revenue streams from emissions reduction

10:30 Coffee break

11:00 Session two: Flare reduction strategies and technologies

- Portable rental compression – fast temporary solution to remove flared gas
- Elimination of storage tank flaring through gas blanketing

12:15 Lunch

13:30 Session three: Flared gas recovery options

- Flared gas recovery and commercial options
- Vapour recovery compressors
- Automatic injection systems
- Tail gas recovery from gas processing plants

14:45 Coffee break

15:15 Session four: Operator brainstorm – technical, financial and operational challenges of achieving zero flaring

- Achieving zero flaring – how realistic is it?
- Financial implications
- Technical and operational challenges
- Case study examples and lessons learnt

16:45 Close of workshop

CONFIRMED PANEL MEMBERS

Chairman: Kamal Morsi, Manager, Production and Facilities Engineering, **ABU DHABI NATIONAL OIL COMPANY (ADNOC)**

Dr Rabia Ferroukhi, Department Manager, Carbon Management Unit, **MASDAR**

Ali Ahmed, Operations Specialist FCCU Complex and Chairman of the Oil Loss Program, **THE BAHRAIN PETROLEUM COMPANY (BAPCO)**

Pedro Diaz, Business Development Manager, **EXTERRAN MIDDLE EAST**

Why you should attend the Gas Arabia Summit

Gas Arabia is the essential meeting place for all companies operating in, investing in and/or looking to do business in the Middle East gas sector.

It is the most comprehensive and interactive gas event in the region, which enables you to combine a macro understanding of the key issues affecting the sector with actionable strategies that you can take back to the office to improve your existing operations.

What's more, with 2 dedicated days on LNG opportunities, sour gas best practices and energy management strategies, this is the ONLY event you need to attend in 2010 to meet your business needs!

WHAT YOU CAN EXPECT

Business card exchange: Prior to the start of each day, you are given the opportunity to formally meet and greet other industry leaders, decision makers and experts. Business cards are exchanged and key relationships are forged that can be fostered throughout the event and beyond.

Industry led agenda: With the input of our inaugural Advisory Board, the agenda has been developed in conjunction with the industry for the industry, meaning that we address the most relevant issues affecting your business over four days.

Practical case studies: Industry leaders of the highest calibre have been carefully selected to share their views on the sector in addition to how their companies are progressing and preparing for the future.

Networking opportunities: 16 coffee breaks, 5 lunches and 2 networking receptions! Plenty of opportunities are offered for you to catch up with your peers, meet new influential decision makers and secure new business leads.

Interactive discussions: Roundtables and panel sessions have been developed to give you the opportunity to key in on specific issues with the experts! Select your topic of choice and join industry leaders in interactive and informal discussions.

SPONSORSHIP OPPORTUNITIES

In today's competitive landscape, attracting new business in the Middle East gas sector, impressing your clients and maintaining your business relationships is becoming more competitive, costly and time consuming.

Whether you are looking to promote your thought leadership, technological developments or position in the market, tailor-made sponsorship packages are available to help you meet your business needs.

Designed to provide your organisation with a platform to raise your corporate profile and attract new business with a highly targeted campaign, our custom packages will enable you to elevate your status in the market. What's more, the social networking opportunities during the event will further enable you to attract and impress potential clients who can substantially increase your revenue streams.

Take this opportunity to join our corporate sponsors and place your solutions directly in front of your target market! Limited packages are available.

To discuss your sponsorship requirements, please contact:
